WINE LIST

INSPIRATION OF OUR WINE LIST

We are pleased to introduce our 2023 wine list. As always, we have listened to our customer's feedback, sampled a wide range of wines and of course worked closely with our wine suppliers to provide you with the best wine experience possible.

We intend to offer quality wines at affordable prices. The New World continues to offer some of the best value for money with Australia, New Zealand, Argentina and the USA producing consistently high standards of wine. Those regions are in strong evolution and it's my pleasure to pick the best gems that come out of it. And let's not forget the Old World classics, which are still the reliable, quality benchmark for many wine lovers. France continues to produce an abundance of stunning wines to suit all palates, while Italy and Spain are enjoying a real resurgence.

So whether you're here on business, for a celebration or just for pleasure, we are confident that you will find a wine to complement the occasion. We hope you enjoy reading our wine list as much as we enjoyed trying them.

More Understanding our wine list with symbol

① - Vegan wine is wine made without animal products ; egg / fish / milk / beeswax (used to seal bottles)

② - Organic wine is wine made from grapes grown in organic farming, which excludes the use of artificial chemical fertilizers, pesticides, fungicides and herbicides

③ - Biodynamic wine is wine has been made with 100% organically grown ingredients and that the entire ecosystem, from the soil to the moon, was factored in to the winemaking process, absence of sulfites means a shorter shelf life and limited aging abilities

④ - Sustainable wines is wine made with the environment, social responsibility, economic viability, and high quality in mind. Your sustainable wine is likely not made with 100% organically grown ingredients and may very well have some additives, such as sulfites, to ensure a longer shelf life and more robust flavors that come with aging
